

DEODORANT

SPOTTER

SLAYER PLUS

ALL-IN-ONE STEP
PET URINE ODOR
AND STAIN ELIMINATOR

POWERED BY
STABILIZED
CHLORINE
DIOXIDE

WHAT IT DOES

ELIMINATES ODORS

Permanently eliminates odors at the source.

ELIMINATES MOST STAINS

Even stubborn older stains.

DECONTAMINATES

Treats potentially harmful contaminants.

RESTORES

For use on all pet urine and carpet and other floors and furnishings.

STOPS OR CONTAINS

Structural damage.

HOW IT WORKS

SLAYER PLUS uses stabilized chlorine dioxide to permanently eliminate odors at their source, breaking down smelly compounds rather than masking them. It also eliminates the stains left by urine, feces and other organic stains like coffee, tea, wine and more.

Fast Acting

Breaks Spectrum Odor & Stain Eliminator

Safe for Most Carpets, Fabrics & Surfaces

No Residue

Environmentally Friendly

When used as directed. Always pretest for colorfastness on a carpet, rug or any textile.

DIRECTIONS FOR APPLICATION:

Locate all areas where a source of odor and staining exists. Remove as odor producing source material as possible through effective pre-cleaning. For best results, SLAYER PLUS should either be contact with the source of the odor to be as effective as possible.

PRE-TEST FIRST. Since SLAYER PLUS contains an oxidizing agent, pre-test all applications surface (carpet, rugs, upholstery textiles, and hard surfaces) for colorfastness before use.

SAFE & VERSATILE. Use on any water safe surface (always pretest for colorfastness on carpet, rugs, or any textile) including, carpet, draperies, upholstery, hard surfaces and floors, pet beds, mattresses, and more.

REFRESHES SPACES. Does a fabulous job of treating general odors in carpeting to help freshen up the whole room—without using an overwhelming perfume or fragrance.

SLAYER PLUS ALSO DOES NOT CONTAIN:

Hydrogen peroxide, so you do not need to worry about white fibering from application.

Store using enzyme or bacterial culture technology which lose effectiveness over moisture or have of dwell time to work as intended.

Sodium Chlorite Treatments—these types of products can be described when used in conjunction with acid rinses, searers, or treatments.

EASY TO USE – POWERFUL RESULTS

1

For most direct treatment applications on odor and stains, apply SLAYER PLUS straight to the affected area.

2

For larger contaminated areas (entire rooms), mix one part SLAYER PLUS with four parts water and apply to affected area.

3

For urine contamination, you can inject or saturate material SLAYER PLUS directly into the carpet, bedding, and cushions.

4

Allow to dwell for 3–5 minutes. Extract area thoroughly, preferably with sub-surface extraction tool.

5

If deactivation or stains remains after application, apply SLAYER PLUS directly to the stain and allow to dry naturally.

SAFER FOR
HOME, PETS
& FAMILY

ELIMINATES
ODORS AT
THE SOURCE

- ✓ BREAKS DOWN ODOR MOLECULES
- ✓ ELIMINATES STAINS
- ✓ DECONTAMINATES
- ✓ SAFE & EFFECTIVE
- ✓ FAST ACTING

USE WITH A SUB-SURFACE EXTRACTION OR SPOTTING TOOL TO SPEED UP YOUR EFFECTIVENESS AT TREATING SEVERE URINE CONTAMINATION.

Pet Urine Odor and Stain Treatment Comparison Chart

Type of Treatment	Eliminates Odors	Removes Stains	Treats Potentially Harmful Contamination	Contains/Prevents Potential Structural Damage	Time to Work	Neutralized by Acid Rinses, Spotters, Treatments	Stain Reappears
Urine Pre-Treatment	✓	✓	✓	✓	Within minutes	No	Yes
Enzyme/Bacterial Cultures	✓	✓	✓	✓	1 hour - 24 hours	Possibly	Yes
"Oak" Type Deodorizers	✓	✓	✓	•	Within minutes	No	No
Hydrogen Peroxide-Based Products	✓	✓	✓	•	Within minutes	No	No
Sodium Chlorite Products	✓	✓	○	✓	Within minutes	Yes	No
SLAYER PLUS	✓	✓	✓	✓	Within minutes	No	No

Key:

= Works effectively within time frame

= Some effectiveness

• = Generally not effective
